***Understanding and Responding to  
Parent-Child Contact Problems in Family Law Matters:  
It's Not (just) About Alienation Anymore!***

**Benjamin D. Garber, Ph.D.**  
**Family Law Consulting, PLLC**

Evaluation and adjudication of Parent Child Contact Problems demand an inductive approach to understanding the complex and interwoven variables associated with this dynamic. Binary answers may appeal to litigants' confirmational biases, zealous advocates, and the pressures of the conventional courts but commonly risk doing grave harm. This discussion will expose the illogical and unscientific foundation of the binary approach as represented by the "5-factor model." An organizing rubric is introduced to assist evaluators and the courts to better understand and begin to respond to the genuine complexity of human relationships.

Interested parties can purchase Dr. Garber's books here <https://familylawconsulting.org/Pubs.html>

**COAFCC Members: \$15 | Non-members: \$35**

**All Colorado judicial officers, who have been appointed to the bench within the previous twelve months, and all Colorado court staff, will be granted free admission (including confirmation of CLE) to this webinar.**
